

New Spay/Neuter and Dental Packages for Pets at ICVS

As the global economic recession has affected everyone, the International Center for Veterinary Services (ICVS) wants to ensure that all pet owners can still enjoy the same high quality services at affordable prices, especially during these tough times.

ICVS has worked very hard with our suppliers to obtain the same high quality supplies at special prices. We are very pleased to be able to pass these savings on to our clients.

ICVS is introducing new spay/neuter and dental packages that reflect these cost savings for our clients. Please contact ICVS for more information.
